RE: Letter of Appeal - OmniPlus Health Care, L.P. (NCPDP# 4597994)

Dear Sir/Madam,

We are in receipt of your letter, dated March 13, 2013, notifying us of your determination that our pharmacy is a mail order pharmacy and that, as a result, we are ineligible to participate in the CVS Caremark network. In connection therewith, we are submitting this letter of appeal and kindly ask that you re-examine and reverse your determination of ineligibility. We dispute your determination as we believe it was made based on an incorrect information we inadvertently provided in our application.

Since 1996, we have specialized in providing high-risk compounded sterile Intrathecal medications. At this juncture, we are looking to become a full-service retail/community pharmacy, offering pharmacy services and dispensing products to the general public through in-person hand delivery. A photo showing our storefront is attached herewith. As a result of becoming a full-service retail/community pharmacy, we expect that only a small percentage of our products will be delivered using mail service. Although at this time it is difficult to determine the exact percentage, we are confident that the number of prescriptions delivered via mail will not exceed 8%. Therefore, our answer to a question in the application "Is 25% or more of your business Mail Order?" should have been checked as "No."

We trust that you will take into consideration the above facts and reverse your determination thereby enrolling us into the CVS Caremark network.
